

Pros	Cons
Attractive	More expensive to build than other designs
Lid: which will help deter primates	More skills required to build
Good size, can be hidden out of sight of guests	Not fully pest proof (i.e. rats)
Could install several onsite	

Pros	Cons
Attractive	More expensive than other designs
Lid: which will help deter primates	More skills required to build
3 sections, as discussed	Not fully pest proof (ie rats)
Diagrams/Instructions on the lid-good idea	
Can be used as part of education programmes	

Pros	Cons
Attractive	Metal wiring will need to be replaced regularly (possibly use plastic mesh instead)
Lid, which will help deter primates	
Good size, can be hidden out of sight of guests	
Could have several onsite	
Pest proof	

Pros	Cons
Simple design: be easy and cheap to make	Metal wiring will need to be replaced regularly (possibly use plastic mesh instead)
Good size, can be hidden out of sight of guests	Not pest proof (ie rats)
Could have several onsite	No lid

Pros	Cons
Simple design: be easy and cheap to make	Metal wiring will need to be replaced regularly (possibly use plastic mesh instead)
	Not pest proof (i.e. rats)
	No lid
	Not as 'attractive' as other designs
